CITY'S HEART TO DYING BOY

Article Brings Response for Cancer Victim

By GREGG PETERSON
Herald Staff Writer
Tony Furtado smiles now, he has learned people can be nice.

'Cat' Gets \$100 From Apartments

ONLY 20 years old, his left leg was amputated when he was 15, and now, faced with the stark reality he has only three months to live, Tony has received over 300 calls and letters since Thursday.

The mailman has to ring the Tamulinas' doorbell since he cannot get the letters in the mailbox. As a result, Tony's outlook has been brightened, and he has actually improved from the coughing attack which forced him into the hospital on Tuesday.

BESIDES THE phone calls and letters, people have offered pies, flowers and even pajamas. Professional entertainers have offered to perform for him, and a benefit dance is under consideration in the near future.

Mrs. Tamulinas says, "It just seems people cannot do enough for him." "It is about time though," she says, "after 20 years of suffering he is finally finding out that not all people are bad."

THE HOSPITAL has allowed Tony to tape his cards on the wall and Mrs. Tamulinas com- (Continued on Page 2)

NEARS OPENING ... Checking over the West High School campus preparatory to its opening this September is Assistant Principal Paul Hawkins. The new plant will open with about 1,000 students, and a staff of about 50 teachers and administrators. (Herald Photo)

Auto Crashes Injure Eleven Persons in City

Eleven persons were injured in six automobile accidents in Torrance late this week.

Five persons were taken to Little Company of Mary Hospital about 5:30 p.m. Friday after a two-car accident at Torrance Boulevard and Anza Avenue.

Suffering minor injuries was one of the drivers, William Donald Krammer, 50, of 25233 Loytan. A passenger, Julie Ruth Kohet, 31, Palos Verdes Estates, suffered major injuries.

Council to Face Mine Run Agenda

With the exception of a brief awards ceremony in which George Bradford, former council member, will receive recognition and a gift from the City Council for his term of service, Tuesday evening's weekly meeting of the governing body set at 5:30 promises to be largely routine.

Bradford served one term on the council but did not seek re-election last April due to press of duties at his company, the George A. Bradford Machinery Co., 1915 Abalone St.

A third and final reading of the petition for a change of zone from A-1 to C-3 on property beginning 200 feet east of Hawthorne Blvd., on the south side of Torrance Blvd., extending eastward some 1200 feet and approximately 825 feet deep, heads the customary run of zoning matters on which the council is asked to act.

APPROVAL OF a tentative tract map consisting of 12 lots on 181st St. west of Doty Ave. also is sought as well as a variance and conditional permit to construct a motel apartment house with pool, recreation room at 16635 Crenshaw Blvd. The land involved now is zoned C-2 and R-1. A series of communications (Continued on Page 2)

INJURED IN the other car involved were passengers in a car driven by Marie Janet Dupont, 32, of 21706 Ladeene Ave. They were Mary Alice Leis, 59, of 19405 Sturges Dr., and William Klinker Pribil, 41, Palos Verdes Estates. Both suffered minor injuries.

Four other accidents also occurred Friday. A bicyclist, Pamela Ann Mark, 7, of 3333 Cricklewood St., suffered major injuries and was taken to Little Company of Mary Hospital after her bicycle collided with a car driven by Glen George Colvin, 34, of 3220 Cricklewood St. The accident occurred about 5:45 p.m. on Cricklewood Street east of Winlock Dr.

BERNICE PILLSBURY Blanchard, 30, of 17575 Yukon Ave., suffered minor injuries and was taken to South Bay Hospital about 6 p.m. Friday after a sedan, driven by Dennis John Chinn, 17, Gardena, collided with the rear of her vehicle on Artesia Boulevard west of Prairie Avenue. Both cars were eastbound on Artesia.

The Crenshaw curve, north of Pacific Coast Highway, took its toll again Friday night. William Harrison Bartoe Jr., (Continued on Page 2)

'MISS FIREWORKS' AND FRIEND ... Dore Daley, 'Miss Fireworks,' is preparing for a big Fourth of July, but Torrance residents shouldn't try the same thing. Only 'safe and sane' fireworks are legal here. Closest fireworks shows on July 4 will be in Redondo Beach, Alondra Park, and Long Beach.

West High School to Open in Fall With Enrollment of 1,000 Students

(Pictures on Page 8) An estimated 1,000 students will begin the school year in September at the latest of the city's high schools, West High School, this fall.

Under the guidance of Principal Robert Ford, the school will become the city's fourth high school and will represent the Torrance Unified School District's latest effort in its battle to avoid double sessions. Designed by Architect Roy Donley, who also drew the plans for South High and several Torrance elementary schools, the school features the latest features in modern educational planning. Hub of the campus will be a circular library building, which will also contain administrative offices.

PRESENT PLANS call for construction of the \$4 million campus in units, with gradual increase in the number of students until the enrollment capacity of about 3000 is reached. The campus includes three classroom wings, the first of which will be ready for use in September. The next increment to the school, scheduled to be ready in 1963, will be a physical ed-

ucation building and two new classrooms. Later increments will include two additional classroom wings, administration and music buildings.

It will also include a central kitchen from which food will be distributed to three smaller eating areas. Included in the plant will be a large room in each of the classroom wings for lectures, TV presentations, eating, and other large group gatherings. It is designed with a maximum of flexibility.

LOCATED ON 40 acres at Victor and Spencer Sts. in the Victor area, the new school will have a staff of about 50 teachers and administrative personnel during its first year. It will serve the area bounded by Hawthorne, Sepulveda, 190th St., and the west city boundary.

All four classes, freshmen through senior, will be represented in the new school's student body.

Heading the program at West will be the principal, Dr. Ford, who previously served as assistant principal at North High and as a principal in Bellflower. Assistant principals will be Paul Hawkins, for-

mer North and South High teacher and counsellor, and Mrs. Gretchen Smith, who has served in many capacities in northern California schools.

BEGINNING JULY 5, the school will be open from 1 to 4 p.m. and from 6 to 8 p.m. for counselling sessions for parents and students.

West High is the third new high school built in Torrance in the last seven years. North High opened in 1955, while South High began in 1957. Additions have been built at both schools, and at Torrance High, which was built shortly after World War I. Plans are currently underway to expand the Torrance High campus to accommodate more than the present capacity of about 1300. Since 1947, when the district was separated from Los Angeles, the number of schools has grown from five to 35 and enrollment 2,000 to nearly 30,000.

Athletically, West High has arranged its football schedule, set plans for a track, and finished baseball and tennis facilities. The football team will meet Boulder City, Colo., Palmdale, Barstow, Victor Valley, and a Nevada team. Official nickname for the school will be the Warriors.

Walks Through Door Sam Elett of 3764 W. 244th St., was treated for cuts Thursday afternoon at Little Company of Mary Hospital after he walked through a glass door, police said.

A Penny for your Thoughts

The Pennies photographer asked students in downtown Torrance how late they "believe junior high and high school girls should stay out on dates."

Anita Eggers, 1718 W. 248th St., Lomita:

"I think it depends upon where they go. If you go someplace like miniature golfing then they should be home by 11 but if they go to a show it might not get out until about 12."

Nancy Gotehals, 2351 W. 234th St.:

"I think every girl should be in by 12 except on a big date such as a prom or other big school event."

Janet Edwards, 1917 W. 257th St.:

"I think it depends upon the understanding the parents have with the girl. The girl should be able to voice her opinion in the matter also."

Leslie Airey, Wilmington:

"It all depends upon the date and I think a girl should be home no later than 1. Junior high girls should double date if they are going to a drive-in movie."

PLAYGROUNDS, PARKS OPEN ... As Torrance's 7 parks and 22 playgrounds begin their summer activities this week, "Nursery Rhymes" will be the theme. At McMaster Park, Sheryl Brooks got in the spirit early, putting on her Little Bo Peep costume, with Mike Sutton admiringly looking on.

City to Note Holiday This Wednesday

"Dangerous" fireworks — firecrackers, blank cartridges, skyrockets, Roman candles, and other similar devices — are illegal in Torrance and throughout California, local residents preparing for the Fourth of July were reminded today.

"Safe and sane" fireworks sold at authorized stands are legal in Torrance. Those who desire to see spectacular fireworks displays can go to Alondra Park at sundown; Redondo Beach's Horseshoe Pier at 9 p.m.; Long Beach's Rainbow Pier at 9:15 p.m.; or the Los Angeles Coliseum for a special program.

All Torrance parks will be open and staffed, but no special programs are planned. El Retiro and Paradise Parks will be open from 9 a.m. to 8 p.m., while McMaster, WALTERIA, Torrance, and La Romeria Parks will close at 9. School playgrounds will be closed. At parks, equipment will be checked out.

Los Angeles County beaches, anticipating large crowds, will have lifeguards out in full strength.

Thief May Find He's Movie Star

An unsuspecting thief may be recorded on film after making off with about 300 pennies from a Torrance home. Robert Rose of 18303 Falda decided having his home entered from five to seven times in the past 18 months was a little too much to take so he rigged up a system for recording the thief on film.

For the past several weeks Rose had a movie camera set up to take pictures of the thief. When he returned home from work Friday he found the camera had been in operation.

Now Rose is anxiously waiting for the film to be returned from the processor. Friday, the thief entered the home through a broken bedroom screen and unlocked window.
